

EDUCATION

B. Tech (ECE)	2016-2020	Delhi Technological University	7.94 cgpa
CBSE (Class XII)	2016	Modern Era Convent ,New Delhi	90.8%
CBSE (Class X)	2014	Modern Era Convent ,New Delhi	7.8 cgpa

TECHNICAL SKILLS

- **Languages :** Java, Javascript.
- **Tools and framework:** Spring boot, Spring MVC, Spring JPA, Angular, Git, tortoise SVN, Postman, Jenkins, JIRA, Solace, AWS, Amazon S3, Microservices, Apache kafka.

WORK EXPERIENCE

* Airtel Digital (Feb 2022-Present)

- Software Engineer

- **Payment Receipt microservice:** Generate authenticated payment receipt to the new customer during acquisition over online payment link instantly . Push the payment receipt over sms, email and whatsapp.
- **Bill Notification for B2B customers:** Sending respective data feed for B2b customers over Solace Queue for Bill Notification.
- **Airtel PostPaid Invoice Billing:** added dynamic promo image for specific conditions in invoice bills across all LOB's. Also, made corresponding utility for generating respective conditions for data insertions in DB.

* IFFCO Tokio General Insurance (July 2020- Jan 2022)

My major role was to integrate and develop web applications related to various insurance products like motor insurance and health insurance considering all security aspects.

- **System Revamping :** Part of core migration team to revamp existing products (rural insurance and Home Insurance) products from old web portal to new online web portal using **Spring boot** and **angular 8**.
- **Data collection product:** Part of the development team for making an internal portal which collects data from agents and saves it in our database.
- **Print Utility:** Designed and developed a print utility that captures the data from web portal which can be downloaded and printed easily (using angular 8).
- **Hospital Daily Cash insurance product:** Designed and developed a new insurance product which is live on webportal.

PROJECTS

- **Covid19explorer :** (<http://covid19explorer.ueuo.com/>) developed a website that tracks covid19 cases around the world and makes people aware about coronavirus, data is gathered through API.
- **Portfolio website :** (<https://kannav4199.github.io/>) designed a resume/portfolio website using HTML, CSS and BOOTSTRAP.
- **All in one Adblocker** (<https://github.com/kannav4199/AllInOneAddBlocker>) : Developed an adblocker extension which blocks unwanted youtube advertisements and popups (using javascript).

ACADEMIC ACHIEVEMENTS AND AWARDS

- Awarded with Best Team Award, Airtel Ace Award, Recognition of efforts & excellent contribution to the organization and Employee of The Month from Airtel Digital.
